Street Address				Birth Date	
				Month	Day
				Year	Sex
				<input type="checkbox"/> M <input type="checkbox"/> F	
City	County	ZIP Code		Driver Facility Control Number and Date:	

II. INSTRUCTIONS FOR VISION SPECIALIST

Illinois driver's license applicants may be required to pass a vision screening. If the vision standards are not met, the applicant will be referred to a vision specialist. Driver Services employees do not recommend or suggest which registered vision specialist to contact.

The applicant must sign and date this report in your presence. Place your signature and certificate number in Section VII. Comments may be entered in Section V. Sections VIII to XI (reverse) must be completed for an applicant who desires to use a prescription mounted telescopic lens arrangement. READINGS THAT INDICATE A PLUS (+) OR MINUS (-) ARE NOT ACCEPTABLE (example: 20/40⁺ OR 20/100⁻). If needed, a supplementary sheet, which has been signed and dated, may be attached to this report.

I authorize release of the report of this examination to the Secretary of State, Driver Services Department, Springfield, IL, for confidential use on my driving record. This report is valid for six months from the examination date below.

Applicant Signature _____

Telephone Number (Telescopic Lens Wearer Only) _____

III. ACUITY SECTION

Minimum Visual Screening Standards—Acuity

- Acuity:** – **No restrictions** = 20/40 (without corrective lenses)
- Daylight driving only = 20/41 to 20/71 (with best correction binocular)
 - Failure = 20/71 or less (binocular)
 - Left and right outside rearview mirror = to or greater than 20/100 (monocular)

(For telescopic lens arrangements complete Section VIII.)
Vision Specialist Examination Certification

Acuity	Both	Right	Left
With correction	20/	20/	20/
Without correction	20/	20/	20/

IV. PERIPHERAL SECTION

Minimum Visual Screening Standards—Peripheral

- Peripheral:** – Monocular = 70° temporal and 35° nasal (105° total field)
- Binocular = 140° total temporal field

(For telescopic lens arrangements complete Section VIII.)

Vision Specialist Examination Certification

Left Eye		Right Eye		Total Field of Vision*
Temporal Reading	+	Temporal Reading	=	
_____°		_____°		_____°

(140° or greater – qualification with no restrictions. If 139° or less see below.)

* If the total field of vision above equals less than 140°, the applicant may still be able to qualify for a driver's license with restrictions. Screen each eye individually by finding a temporal **and** a nasal reading. At least one eye must have a minimum temporal reading of 70° and a minimum nasal reading of 35° for a total of 105° to qualify with a restriction of **both** a left and a right outside rearview mirror. **If neither eye has at least 70° temporal and 35° nasal, the applicant is not qualified to be licensed to drive in Illinois.**

Complete **only** if applicant received less than 140° total field of vision above:

Left Eye			Right Eye		
Temporal	+	Nasal	=	Total	
_____°		_____°		_____°	
Temporal	+	Nasal	=	Total	
_____°		_____°		_____°	

V.

Specialist check all applicable items:

1. Applicant should drive in daylight only.
2. Applicant would not accept correction.
3. Corrective lens(es) were accepted, checked and approved.
Date: _____

4. Prescription spectacle mounted telescopic lens arrangement (see reverse).

Comments: _____

VI.

Specialist check all applicable items:

1. Annual exam
2. Condition stable
3. Condition deteriorating (please explain)
4. Condition warrants monitoring (please explain)

5. Other (please explain)

If #3, 4 or 5 is marked, please indicate diagnosis and recommendation for re-examination in: 6 months 12 months Other _____

VII.

I certify that I have examined the eyes of the above-named individual and that a true record of my examination appears hereon.

Certificate # _____

Business Address _____

Telephone Number _____

Date of Examination _____

City/ZIP Code _____

This Side to be Completed for Prescription Mounted Telescopic Lens Wearers ONLY.

Sections I, II, V, VI, VII (front) and the following sections must be completed for prescription spectacle mounted telescopic lens wearers. Applicants who qualify to drive with the use of a prescription telescopic lens arrangement are restricted to driving during daylight hours only, unless otherwise indicated, and are eligible for a Class "D" driver's license only.

VIII. ACUITY SECTION:

Minimum Visual Screening Standards—Acuity Prescription Spectacle Mounted Telescopic Lens(es)

- Telescopic lens(es) may not exceed 3X wide angle, or 2.2X standard
- Central acuity through the telescopic lens must be 20/40 or better
- Central acuity through the carrier must be 20/100 or better
- Left and right outside rearview mirror = to or greater than 20/100 (monocular vision through telescopic lenses)

Vision Specialist Examination Certification

Acuity	Both	Right	Left
Through carrier lenses	20/	20/	20/
Through telescopic lenses	20/	20/	20/
Without correction	20/	20/	20/

IX. PERIPHERAL SECTION:

Minimum Visual Screening Standards—Peripheral Prescription Spectacle Mounted Telescopic Lens(es)

Peripheral 140° binocular or monocular 70° temporal and 35° nasal with the prescription spectacle mounted telescopic lens(es) in place and without the use of field enhancers.

Vision Specialist Examination Certification

Left Eye Temporal Reading	+	Right Eye Temporal Reading	=	Total Field of Vision*
_____°		_____°		_____°

(140° or greater – qualification with no restrictions. If 139° or less see below.)

* If the total field of vision above equals less than 140°, the applicant may still be able to qualify for a driver's license with restrictions. X.

- Date applicant received telescopic lens arrangement: _____
- Power of telescopic lens arrangement: _____
- Is the patient's condition stable? Yes No
- In your professional opinion, is there any indication that the applicant may not be capable of safely operating a motor vehicle? Yes No
- Additional comments or restrictions:

XI.

Has the patient successfully completed all the following requirements? Yes No

- The patient has been fitted for a prescription spectacle mounted telescopic lens arrangement and has had this arrangement in his/her possession for at least 60 days prior to the application date.
- The patient has clinically demonstrated the ability to locate stationary objects within the telescopic field by aligning the object directly below the telescopic lens and moving the head down and the eyes up simultaneously.
- The patient has clinically demonstrated the ability to locate a moving object in a large field of vision by anticipating future movement, so that by moving the head and eyes in a coordinated fashion, he/she is able to locate the moving object within the telescopic field.
- The patient has clinically demonstrated the ability to remember what has been observed after a brief exposure, with the duration of the exposure progressively diminished to simulate reduced observation time while driving.
- The patient has experienced levels of illumination which may be encountered during inclement weather or when driving from daylight into areas of shadow or artificial light and the patient has clinically demonstrated the ability to successfully adjust to such changes.
- The patient has experienced walking and riding as a passenger in a motor vehicle so that he/she has practical experience of motion while objects are changing position.
