INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category.

Rulemaking activity consists of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State Statute; and activities (meeting agendas; Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State Agencies; is also published in the Register.

The Register is a weekly update of the Illinois Administrative Code (a compilation of the rules adopted by State agencies). The most recent edition of the Code, along with the Register, comprise the most current accounting of State agencies’ rulemakings.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5 ILCS 100/1-1, et seq.].

SUBPART A: PRINCIPLES OF PERMANENCY PLANNING

Section 315.30 Best Interests, Health and Safety of the Child

a) Best Interests, Health and Safety of the Child

Permanency planning is an on-going process that first and foremost must consider the best interests, health and safety of the child in all planning decisions. Health and safety are the paramount factors that must be considered when determining the best interests of the child. This means that a child is or will be in a living arrangement that meets the placement selection criteria contained in 89 Ill. Adm. Code 301 (Placement and Visitation Services), or, for an Indian child, that meets the placement selection criteria contained in 89 Ill. Adm. Code 307 (Indian Child Welfare Services), and that protects the child's physical health and safety and promotes the child's emotional, medical, and developmental well-being. When evaluating the best interests of the child, the Department or its purchase of service provider shall consider the following factors as provided in the Juvenile Court Act:
DEPARTMENT OF CHILDREN AND FAMILY SERVICES

1) the physical safety and welfare of the child, including food, shelter, health, and clothing;

2) the development of the child's identity;

3) the child's background and ties, including familial and religious, including the primary method and/or language of communication between the child and the biological parents or any other special communication needs;

4) the child's sense of attachments, including:
   A) where the child actually feels love, attachment, and a sense of being valued (as opposed to where adults believe the child should feel such love, attachment, and a sense of being valued);
   B) the child's sense of security;
   C) the child's sense of familiarity;
   D) continuity of affection for the child;
   E) the least disruptive placement alternative for the child;

5) the child's wishes and long-term goals;

6) the child's community ties, including church, school, and friends;

7) the child's need for permanence, which includes the child's need for stability and continuity of relationships with parent figures and with siblings and other relatives;

8) the uniqueness of every family and child;

9) the risks attendant to entering and being in substitute care; and

10) the preferences of the persons available to care for the child. [705 ILCS 405/1-3].

SUBPART B: ASSESSMENT AND OTHER CASEWORK ACTIVITIES

Section 315.100 Assessment

Assessment consists of an initial assessment of a child and family to determine whether a case should be opened and services delivered, a comprehensive assessment to determine the needs of the family to provide the appropriate intervention and services, and an ongoing assessment conducted throughout the duration of time that the children and family are receiving services. Initial assessment provides a baseline of family strengths and needs by which a caseworker and supervisor can evaluate subsequent progress.

a) Initial Assessment
The initial assessment consists of a preliminary assessment prior to case opening in order to:
1) assess the health and safety of the children to determine whether the child can safely remain in his or her current living arrangement;

2) identify the level of risk of harm to the children in the family, develop and implement a safety plan (if at any time the aggravating circumstances appropriate for expedited termination of parental rights exist, the worker shall immediately follow the instructions for expedited termination of parental rights contained in 89 Ill. Adm. Code 309 (Adoption Services for Children for Whom the Department of Children and Family Services is Legally Responsible));

3) identify what interventions and services can be provided to address the causes of abuse and neglect, and assure a child's health and safety without placement;

4) identify any needs of an emergency nature, including food, shelter, and clothing;

5) identify whether the child is an Indian child as defined in 89 Ill. Adm. Code 307 (Indian Child Welfare Services);

6) begin to identify and preliminarily select placement resources that meet the placement selection criteria contained in 89 Ill. Adm. Code 301 (Placement and Visitation Services); and

7) identify any special communication needs the child may have, in addition to identifying the communication needs specified by the child's parents and/or legal guardians.

b) Comprehensive Assessment

The comprehensive assessment is an assessment completed in time to ensure submittal of the service plan to the juvenile court no later than 45 days after placement as required by Section 2-10 of the Juvenile Court Act of 1987 [705 ILCS 405/2-10]. During the comprehensive assessment period the worker shall conduct at least weekly face-to-face visits with the parent and any children remaining in the custody of the parent. When the parent cannot be located, a diligent search shall be made to locate the parent, as required by 89 Ill. Adm. Code 332 (Diligent Searches Conducted by the Department of Children and
Family Services), and the parent's portion of the comprehensive assessment shall be completed within 30 days after the parent is located.

1) The comprehensive assessment shall consist of any part of the initial assessment that has not yet been completed and the following tasks:

   A) completion of a social history of the child and family to determine the strengths and needs of the family;

   B) continued assessment of the health and safety and level of risk to the children in the family (If at any time the aggravating circumstances appropriate for expedited termination of parental rights exist, the worker shall immediately follow the instructions for expedited termination of parental rights.);

   C) assessment of the parents as it relates to their ability to care for the child, including referral for diagnostic mental health and substance abuse assessment, when indicated;

   D) for children for whom the Department has legal responsibility, the comprehensive assessment shall also include:

      i) a compilation of the medical and immunization history of the child and, where available, relevant medical history of the child's parents;

      ii) location of missing or non-custodial parents and other relatives and their relationship to the family;

      iii) a preliminary, age appropriate substance abuse screening of the child, if indicated by any other component of the assessment;

      iv) a basic educational screening including identification of the child's current school and grade level, educational history, and identification of any educational goals and needs, including the need for any further educational testing or assessments.
2) In addition, for those children, who are placed in substitute care, the comprehensive assessment shall also include:

A) an initial health screening by a qualified medical provider in accordance with EPSDT standards, within 24 hours after placing the child in protective custody, of sufficient scope to permit the Department or purchase of service agency to ascertain enough about the current health of the child to identify:

i) any health needs requiring immediate attention; and

ii) any health information needed to make an informed placement decision.

If a child is in the hospital at the time the Department takes protective custody, the hospital discharge summary shall serve as the initial health screening.

B) a comprehensive health evaluation in time to submit the service plan to the juvenile court within the 45 day period after a child's placement in foster care that includes a physical, dental and mental health status of all children and a developmental screening on all children not yet of school age conducted by medical personnel and followed by more intensive evaluation as indicated or recommended. All children taken into Department custody are to be enrolled in Health Works within the first 45 days after the Department assumes custody.

3) For those children in foster or relative care, the comprehensive assessment shall include an assessment of whether the foster parent:relative caregiver identifying information shall be released to the parent. Identifying information of the foster parent:relative caregiver shall not be released to the child's parents or siblings in the care of their parents when any of the following is found in the assessment of the parent or other adult living in the home:

A) A check of the Law Enforcement Agencies Data System (LEADS) identifies a conviction for any of the crimes listed in Appendix A(a)(1), (3), or (4) of 89 Ill. Adm. Code 301 (Placement and

Visitation Services); or

B) The parent or other adult living in the home has threatened violence against a foster parent/relative caregiver or Department or purchase of service agency worker; or

C) The parent or other adult living in the home has exhibited violence against a foster parent/relative caregiver or Department or purchase of service agency worker in the past; or

D) The parent or other adult living in the home has or has threatened to abduct or harm the child.

c) Ongoing Assessment

Ongoing assessment continues throughout the life of the case until service termination and shall be used to guide the Department or purchase of service agency in developing an appropriate case plan and guide decisionmaking concerning the Department's or purchase of service agency's reasonable efforts and the client's reasonable progress to correct conditions and/or behavior that threaten a child's health and safety. The ongoing assessment shall consist of reassessing health, safety and risk and the reapplication of any additional screenings as described in subsection (b) whenever the facts of the case indicate the need as well as well-child exams and a review of immunizations, until termination of services.

Section 315.110 Worker Interventions and Contacts

This Section applies to caseworker interventions and contacts made during the delivery of child welfare services and does not include the interventions and contacts required by child protective investigative staff during the course of child abuse and neglect investigations. To meet any of the intervention and contact requirements described in this Section with hearing impaired clients or limited non-English speaking clients, the worker must be able to facilitate communication using the client's primary mode of communication (e.g., fluency in the client's language or the use of foreign or sign language interpreters; e.g., Braille or taped communications for persons with visual impairments, etc.).

a) Initial Intervention and Contact by Caseworker
DEPARTMENT OF CHILDREN AND FAMILY SERVICES

NOTICE OF ADOPTED AMENDMENTS

1) The assigned caseworker or person assigned by the supervisor, if the assigned caseworker is unavailable, must attend the shelter care hearing in court.

2) The assigned caseworker must attempt face-to-face intervention and contact with the family in the home within five working days after the shelter care hearing or case assignment, whichever is earlier, unless the caseworker and supervisor believe, based upon the health, safety, and best interests of the child, that it is necessary to attempt contact sooner. If the family is unavailable, the caseworker shall make a second attempt within one working day after the failed attempt. If that attempt is also unsuccessful, the caseworker shall conduct a diligent search for the family.

b) Ongoing Intervention and Contact

1) With Families
   The families of children in placement shall be seen by the assigned caseworker at least monthly or more frequently as might be specified by the service plan unless parental rights have been terminated.

2) With Children
   The assigned caseworker shall see any child in substitute care in the child's living arrangement at least once every two weeks for the first month immediately following initial placement or a change in placement and at least once every month thereafter. When visiting children in substitute care, the caseworker must interview verbal children out of the presence of the caregiver.

3) The above frequencies shall be followed, unless the supervisor, based on the assessment, determines and documents in the service plan, in writing, that the service plan requires more frequent or less frequent contact.

c) Interventions and Contacts Following Reunification
   During all interventions and contacts following reunification, the caseworker must see the child outside the presence of the parent.

1) Initial Intervention and Contact
   Following the return home of a child who has been in substitute care, an

initial face-to-face intervention with the child and parent must be made via a visit in the home by the assigned caseworker within 24 to 72 hours after the child's return home. The timing of the visit will be based upon the safety plan completed when the child is returned home.

2) First Month
Following the initial visit, weekly or more frequent intervention and contact, as determined by the supervisor, with the child and parent in the home is required for the first month following reunification. At least two of the visits during this first month after reunification must be unannounced.

3) Ongoing
Frequency of intervention and contact subsequent to the first month of reunification shall be at least monthly until such time as safety and risk assessments indicate that there are no longer sufficient safety or risk factors present to require continued contact.

d) Contact With Foster Families/Relative Caregivers
The assigned Department or purchase of service agency caseworker shall provide the primary foster parent or relative caregiver caring for a child for whom the Department is responsible with monthly face-to-face consultation and support and more often on an as needed basis. This face-to-face contact with the primary foster parent or relative caregiver may occur at the same time as contact with the children in placement is made, provided that children are given the opportunity to be seen and interviewed alone. If there are two or more foster children in one foster home with more than one worker, their respective workers shall together meet at least once every six months with the foster parent, in the foster home, to discuss issues affecting the children's care.

e) Children Placed in Residential Facilities
Children placed in residential facilities (group homes or child care institutions and other facilities such as mental health and correctional facilities) must be visited by the assigned caseworker at least monthly, unless the facility is located more than 50 miles from the caseworker's headquarters. If the facility is more than 50 miles from the caseworker's headquarters, visits shall occur every two months.

A Department or Purchase of Service worker who visits a child placed in Illinois from another state shall prepare the same quarterly report. In either case, the supervising caseworker must submit the quarterly report to his or her respective interstate office, and not directly to the other caseworker.

Section 465.5 Definitions

Terms defined in Section 16-102 of the Public Utilities Act (Act) [220 ILCS 5/16-102] shall have the same meaning for purposes of this Part as they have under Section 16-102 of the Act, unless further defined in this Part.

"Annual period" means the period of 12 consecutive monthly billing periods ending on the last day of either the net metering customer's April monthly billing period or its October monthly billing period, whichever was selected by the customer in connection with its application for net metering.
"Avoided costs" means the incremental costs to the electricity provider of electric energy or capacity or both, which, but for the purchase from an eligible customer, the electricity provider would generate itself or purchase from another source.

"Electric utility" means a public utility, as defined in Section 5/3-105 [220 ILCS 5/3-105] of the Act, that has a franchise, license, permit or right to furnish or sell electricity or light, except when used solely for communications purposes, to "retail customers" within a "service area" as both of these terms are defined in Section 5/16-102 of the Act.

"Electricity provider" means an electric utility, whether providing services within or outside of its service area, or an alternative retail electric supplier.

"Eligible customer" or "customer" means a retail customer that owns or operates a solar, wind, or other eligible renewable electrical generating facility with a rated capacity of up to 2,000 kilowatts that is located on the customer's premises and is intended primarily to offset the customer's own electrical requirements.

"Eligible renewable electrical generating facility" means a generator up to 2,000 kilowatts powered by solar electric energy, wind, dedicated crops grown for electricity generation, anaerobic digestion of livestock or food processing waste, fuel cells or microturbines powered by renewable fuels, or hydroelectric energy.

"Net electricity metering" or "net metering" means measurement during the billing period applicable to an eligible customer of the net amount of electricity supplied by an electricity provider to the customer's premises or provided to the electricity provider by the customer.

"Net purchaser of electricity" means that the total amount of generation produced by the customer is less than the customer's total usage during the applicable billing period.

"Net seller of electricity" means that the total amount of generation produced by the customer is greater than the customer's total usage during the applicable billing period.

"Time of use rate" means any contract or tariff under which the kWh price for electric power and energy supply is not uniform over all of the hours in a billing period.
Section 465.10 Application of Part 465

This Part shall apply to all Illinois electric utilities and alternative retail electric suppliers as defined in the Act that are required to provide net metering services in accordance with Section 16-107.5 of the Act [220 ILCS 5/16-107.5].

Section 465.20 Purpose of this Part

The purpose of this Part is to establish standards for net metering in accordance with the requirements of Section 16-107.5 of the Act. Nothing in this Part is intended to conflict with or supersede 83 Ill. Adm. Code 452.

Section 465.30 Tariffs

Each electric utility subject to Section 16-107.5 of the Act shall file a tariff with the Illinois Commerce Commission (Commission) in compliance with Section 16-107.5 of the Act and this Part.

Section 465.35 Net Metering Application and Enrollment Procedures

a) Each electricity provider shall establish an application form and procedures to enable eligible customers to participate in the net metering program offered by the electricity provider.

b) An electricity provider may establish an enrollment cap of 1% of the peak demand supplied by the electricity provider in the previous calendar year in accordance with Section 16-107.5(j) of the Act. Nothing in this Part alters the authority of electricity providers to offer net metering beyond the limitations in Section 16-107.5(j) of the Act, if they so choose. Applicable electric utilities (e.g., Illinois Power Company, Central Illinois Light Company, Central Illinois Public Service Company, Commonwealth Edison Company and MidAmerican Energy Company) shall limit the number of eligible customers with generators that have a nameplate rating of 40 kilowatts and below to 200 new billing accounts until March 31, 2009.

c) Each electricity provider shall establish an open enrollment period to receive net metering applications during the first month that net metering is available. If an electricity provider receives applications in excess of any applicable limits set
forth in subsection (b), that provider shall determine enrollment priority by lottery. Applications will not be accepted prior to the start of the open enrollment period. This subsection does not prohibit an electricity provider from providing an initial preference for customers that are already participating in net billing or other programs similar to net metering that are offered by that provider.

d) After the end of the open enrollment period, or after any applicable limit provided for in subsection (b) has been met, whichever comes first, net metering enrollment priority shall be established on a first-come, first-served basis, according to an electricity provider's date stamp indicating receipt of a completed net metering application. Applicants that applied during the open enrollment period that did not establish enrollment priority during the open enrollment period shall have their enrollment priority established in accordance with this subsection (d) based upon the date stamp of the application submitted during the open enrollment period.

e) Each completed application for net metering services shall be in writing and shall include:

1) The customer's name, contact information and corresponding service location where the proposed net metering generation facility or facilities are located;

2) The name plate capacity rating of the proposed net metering generation facility or facilities; and

3) Sufficient information to permit the electricity provider to determine whether any facility on the application qualifies as an eligible renewable electrical generating facility.

f) Electricity providers shall provide applicants with a single point mailing address for all net metering applications to which a completed application must be sent. Electricity providers shall date-stamp each completed application upon receipt and completeness determination. Upon receipt of a completed and executed application, electricity providers shall, within 10 business days after receipt of an application or completion of an open enrollment period, notify an applicant as to whether it is authorized to participate in the electricity provider's net metering program. An electricity provider shall state, in writing, its reasons for denying a prospective net metering customer's application. An electricity provider shall not
deny a prospective net metering customer's application in a manner that violates this Part, 83 Ill. Adm. Code 466 or Section 16-107.5 of the Act.

g) If an electricity provider denies an application due to the cap provided for in subsection (b), the electricity provider shall offer the applicant the opportunity to be placed on a waiting list. If space becomes available under the cap, due to either attrition among enrolled customers or an increase in the electricity provider's peak demand, wait-listed customers shall be processed before new applications.

h) Any authorization to net meter shall remain effective for as long as the customer remains eligible for net metering and continues taking generation service from the electricity provider, subject to the limitations in subsections (h)(1) and (h)(2).

1) A customer authorized to net meter under subsection (f) shall submit an executed application for interconnection, pursuant to 83 Ill. Adm. Code 466, to the electric utility within 30 business days after the date of the notification from the electricity provider pursuant to subsection (f). An electricity provider may cancel the authorization if the customer has not submitted an executed application by the required date.

2) The following provisions apply to any electricity provider that establishes enrollment limits, as provided for in subsection (b):

A) The electricity provider may cancel a customer's authorization to net meter if the customer has not executed an interconnection agreement pursuant to 83 Ill. Adm. Code 466 with the customer's electric utility within 12 months after receiving the interconnection agreement from the electric utility.

B) The electricity provider must automatically extend the authorization to net meter by an additional six months for an eligible customer that has executed an interconnection agreement within 12 months after receiving the interconnection agreement from the utility, but whose eligible renewable electrical generating facility has not commenced operation and passed any applicable witness test.

C) A customer seeking to extend the authorization to net meter for an additional six months must pay a deposit of $25 for each kilowatt
of the nameplate rating of the customer's eligible renewable electrical generating facility, which shall be refunded only if the facility commences operation and passes any applicable witness test. A customer may only receive a single six-month extension.

i) With respect to any customer that has been authorized for net metering offered by an electricity provider that is not the electric utility providing delivery service to the customer, the electricity provider must notify the electric utility of a customer's status as a net metering customer.

j) With respect to any customer that has had its authorization for net metering canceled by an electricity provider that is not the electric utility providing delivery service to the customer, the electricity provider must notify the electric utility of the customer's status as a canceled net metering customer.

Section 465.40 Reporting Requirements

The report required by Section 16-107.5(k) of the Act shall be filed with the Manager of the Energy Division of the Illinois Commerce Commission by April 1 of each year beginning in 2009. The report shall include all information required under Section 16-107.5(k) of the Act, including, but not limited to, the following information: the total peak demand supplied by the electricity provider during the previous year; the total generating capacity of its net metering customers; whether the electricity provider intends to limit total generating capacity of its net metering customers to 1%; and the electricity provider's total number of net metering customers.

Section 465.50 Electricity Provider Billing for Eligible Customers

a) Billing for all residential customers and non-residential customers with generators no greater than 40kW

1) Customers taking services under rates other than time of use rates

A) The electric utility shall determine whether the customer is a net purchaser of electricity or a net seller of electricity during the billing period.

B) If the customer is a net purchaser of electricity during the billing period, the electricity provider shall assess charges on the net amount purchased at the tariffed or contract rate, as appropriate,

under which, the customer is taking service from the electricity provider. To the extent that the electric utility is not the electricity provider, the electric utility shall assess charges for delivery and other provided services at the tariffed rate under which the customer is taking electric service from the electric utility.

C) If the customer is a net seller of electricity, the customer shall receive a credit from the electricity provider that is equal to the net kilowatt-hours supplied by the customer during the billing period. To the extent that the electric utility is not the electricity provider, the customer shall receive a credit for delivery service from the electric utility that is equal to the net kilowatt-hours delivered to the electric utility's system by the customer during the billing period. Any credits received by the customer will be carried over to subsequent billing periods. Unused credits will expire at the end of the annual period or earlier in the event the customer terminates service from the electricity provider.

2) Customers taking service under time of use rates

A) The electric utility shall determine whether the customer is a net purchaser of electricity or a net seller of electricity during each discrete time period for which the tariffed or contract rate for electricity supply, as appropriate, is applicable. For each time period, the electricity provider shall multiply the tariffed or contract rate for electricity supply, as appropriate, by the amount purchased or sold by the customer to determine each time period's charge or credit. These amounts shall be summed to determine the net energy charge or credit for the billing period.

B) If the customer is a net purchaser of electricity, the customer will remain responsible for all taxes, fees and utility delivery charges that would otherwise be applicable to the net amount of electricity used by the customer.

C) If the customer is a net seller of electricity, the customer shall receive a monetary credit from the electricity provider that is equal to the energy credit determined for the billing period, plus kilowatt-hour based delivery charges multiplied by the net energy

NOTICE OF ADOPTED RULES

supplied over the billing period. When eligible customers receive service under an electricity provider's bundled service rates, the monetary credit shall be equal to the applicable kilowatt-hour based bundled service charges, multiplied by the net energy supplied over the billing period. In the event that the electricity provider is not the electric utility, the monetary credit for delivery service shall be provided by the electric utility. Any monetary credits received by the customer will be carried over to subsequent billing periods. Unused credits will expire at the end of the annual period or earlier in the event that the customer terminates service from the electricity provider. For purposes of calculating the customer's electricity bill, any credits may be used to offset other charges assessed by the electricity provider.

b) Billing for non-residential eligible customers with generators over 40 kW and no greater than 2,000 meters

1) Customers taking service under rates other than time of use rates

A) The electric utility shall determine whether the customer is a net purchaser of electricity or a net seller of electricity during the billing period. If the customer is a net purchaser of electricity during the billing period, the electricity provider shall apply the applicable tariffed or contract rate, as applicable, to the net amount purchased. If the customer is a net seller of electricity, the electricity provider shall compensate the customer at the electricity provider's avoided cost of electricity supply. For purposes of calculating the customer's electricity bill, any resulting credits may be used to offset other charges assessed by the electricity provider.

B) The electric utility shall assess delivery charges, fees and taxes on the gross amount of electricity supplied to the eligible customer, regardless of whether the eligible customer is a net purchaser or a net seller. When an eligible customer receives service under an electricity provider's bundled service rates, delivery charges shall be the applicable bundled service rate under which that customer purchases electric service. For the purposes of calculating the customer's bill, any compensation to the customer may be used to offset other charges assessed by the utility.
2) Non-residential customers taking service under time of use rates

A) The electric utility shall determine whether the customer is a net purchaser of electricity or a net seller of electricity during each discrete time period. For each time period, the electricity provider shall multiply the applicable rate to the amount purchased or sold by the customer to determine each time period's charge or credit. These amounts shall be summed to determine the net energy charge or credit for each billing period.

B) The electric utility shall assess delivery charges, fees and taxes on the gross amount of electricity supplied to the eligible customer, regardless of whether the eligible customer is a net purchaser or a net seller. In the case of an eligible customer receiving service under an electricity provider's bundled service rates, delivery services charges shall be the applicable bundled service rate under which the customer purchases electric services. For the purpose of calculating the customer's bill, any compensation to the customer may be used to offset other charges assessed by the electric utility.

Section 465.60 Complaint Procedures

Complaints alleging violations of this Part shall be filed pursuant to 83 Ill. Adm. Code Part 200.

Section 465.70 Penalty Provisions

a) Upon complaint or on the Commission's own motion, the Commission may conduct an investigation of an electricity provider's actions under any Section of this Part. The Commission may, after notice and hearing:

1) order an electricity provider to cease and desist or correct any violation of, or nonconformance with, any provision of this Part;

2) require an electricity provider to make due reparations or refunds as permitted by statute;

3) impose financial penalties for violations of, or non-conformance with, the provisions of this Part as permitted under the Act;
4) take other remedial and preventive action as provided for under the Act.

b) These remedies shall be cumulative and may be imposed in addition to other remedies.

Section 465.80 Miscellaneous Provisions

a) In accordance with Section 16-107.5(e) and (g) of the Act, nothing in this Part is intended to prevent an arms-length agreement between an electricity provider and an eligible customer that either sets forth different prices, terms and conditions for the provision of net metering service, including, but not limited to the provision of the appropriate metering equipment for non-residential customers, or that sets forth the ownership or title of renewable energy credits. In accordance with Section 16-107.5(m) of the Act, nothing in this Part is intended to affect any existing retail contract between an alternative retail electric supplier and an eligible customer.

b) Nothing in this Part shall be construed to impose upon an alternative retail electric supplier any additional obligation that it does not otherwise have pursuant to the Act.
