PRESERVING OUR PAST
for the future

Looking back into our past is an enriching experience. To ensure that future generations have the same opportunities to explore their heritage, the Illinois Regional Archives Depository system (IRAD) was established.

IRAD is a resource-sharing system that works with the Local Records Commission and area officials to transfer valuable records to the seven IRAD centers at Illinois state universities. Records at each IRAD reflect the unique history and traditions of that region. The relocation of local records to regional facilities makes the records more accessible to researchers and prevents their loss or physical deterioration.

These records are of great help to historians, genealogists and local government officials. IRAD staff can help you find whatever you need to discover the past.
