• **Current IRP registrations and credentials expire March 31, 2020.** Drivers of vehicles with expired registrations are subject to arrest after March 31, 2020. Power units renewed will be issued a distinctive 8.5 X 11 cab card showing the 2021 registration year. Apportioned trailer registration does not require a renewal and remains current as long as the vehicle remains in service in the same ownership. If ownership changes, it should be deleted from the firm by filing the proper application.

• Firms with less than 250 units and with minimal changes can renew online at www.cyberdriveillinois.com.

• Estimated distances are no longer allowed for renewal applications. All IRP jurisdictions will appear on your registration regardless of distance reporting or estimation. ALL actual distance accrued in any jurisdiction must be reported and registration fees will be calculated thereon. The option of accruing distance and not apportioning for a jurisdiction has been eliminated.

• The distance reporting period for the 2021 registration year is July 1, 2018, through June 30, 2019. Any distance accrued during this period MUST be reported for the renewal. No exceptions.

• The Heavy Vehicle Use Tax, Form 2290, Schedule 1, for the 2019-2020 tax period must be submitted for all vehicles registered at 55,000 pounds or more. Not submitting properly will cause delays in processing any payment. **Note the “HV” or “HI” on vehicle abstracts as a reminder of this requirement. IRS Stamp or E-File watermark must be clearly visible.**

• Vehicle abstracts showing an “I” or “HI” next to power wreckers being renewed must submit proof of insurance as noted in the International Registration Plan Instruction Manual. Insured period must cover the entire duration of the registration year or be “continuous until canceled.” Registration cannot be issued without proper insurance proof for power wreckers.

• If a vehicle had a Special Hauling Vehicle (SHV) Permit in 2020, make sure the appropriate box is checked to purchase for 2021. Fees are $125 per vehicle requiring the permit. The IRP cab card will show “SHV FEE PAID” in the SHV field verifying purchase of the SHV Permit upon receipt of proper fees. If purchased separately at a Secretary of State facility, only a validated identification card will be issued and should be attached to and carried with the Apportioned Identification Card (cab card).

• Applicants who are unable to renew using the web renewal process and choose to renew in person MUST make an appointment. Appointments are scheduled from 8:30 a.m. to noon, Monday through Friday, excluding holidays. To make an appointment, call 217-785-1800, select option #2. Schedule early as times fill up quickly. Appointments are not required if only making your payment in our office.

• To cancel any firm, fleet or individual vehicles, please submit a Request for Cancellation form available at www.cyberdriveillinois.com (click Publications, Motorist, Commercial & Farm Truck, VSD 674). A printable copy of the form may be obtained from the list of forms. The completed form should be returned as instructed.

• Acceptable forms of payment are listed in the instructions on the renewal letter. Credit/debit card payments are subject to a 2.25 percent bank-processing fee. To pick up credentials paid by credit/debit card, the payment must be in person. Credit/debit card payments cannot be telephoned into this office. Credentials will not be faxed or emailed.

• Special mailing instructions or use of overnight services must be pre-paid by the registrant and pre-approved by our office. We cannot return documents or credentials using the United States Postal Service Express Mail Service or FedEx Ground Services due to potential assessment of additional fees for the service. The pre-paid return label must be completed using your address in both the “To” and “From” sections. The return label must be either FedEx Express or any service offered by UPS.

• Federal guidelines require disclosure of the USDOT Number associated with all registrations. The USDOT Number and TIN (Taxpayer Identification Number) of the Carrier responsible for the safety of each vehicle must be shown. This information can be for an entire fleet or for individual vehicles, whatever the circumstances dictate. Please make sure to answer whether or not the USDOT Number may change in the next 12 months. Incorrect or missing information will delay the processing of the renewal.

• Please submit payments by mail before March 1, 2020, to ensure ample processing time. In-person payments must be made before March 13, 2020. Payments made after that date may be dropped off and credentials returned by mail. Process ALL payments early to avoid potential enforcement actions. Payments must be accompanied by 2 copies of your invoice, 1 copy of the vehicle list (abstract) and proof of HVUT or Insurance (or both, if required).

• For more information, please consult the IRP Instruction Manual available at www.cyberdriveillinois.com (click Publications,
